Our American Way

At some time or another almost every editorial pundit in the country has turned his typewriter to an explanation of the "American Way of Life." Some of these dissertations have been profound and eloquent in the extreme. They have won prizes for their writers and perhaps they have won converts.

But now and then there appears in the news an event which points up better than any other what the "American Way of Life" really is.

Almost always that event is an example of free enterprises and it is done by an individual or group of individuals working together for the common good because they want to, not because they have to.

A current activity answering the challenge of those who call our free enterprise system cold and ruthless is an "American Way of Life". Contest being sponsored by thousands of small businessmen from all over the nation under the leadership of a major manufacturer. Gut of the pockets of these small businessmen will come more than \$500,000 for church and charity use in their

Many entrants in the "American Way" Contest will look behind the fervent belief of their phrases to the example presented by their friend and neighbor whose store they visited to get their entry blanks.

He's the world's best example of the "American Way," for in no other land could this have happened.

Shocking disclosures of scandal in high places is evidence that mental and moral midgets are today playing havoc with our country's political and economic

Integrity in government is one of the great issues confronting Americans.

We must have more public officials in Washington with dignity and self-restraint, men of deep moral conviction who understand the obligations of public office.

THIS being a land where it is every man's right to dream of getting ahead—and the pursuit of happiness is guaranteed by the Constitution-ithappens that a great many people aspire to own a Buick.

But too often they start with a lesser car first - from a feeling that Buicks are something you have to build up to gradually, as your take-home pay improves. So-if you have any such notion-we'd like to set you straight, right here and

You don't have to hope and dream and wait. If you can afford a new car - the first car you buy can be the Buick Special pictured here.

Its price tag says so. Its low cost of operation says so too.

We know that it looks like a lot of money. That's what makes it such a buy.

We know that it has a long list of features found in costlier cars, and that it rides and handles like cars that sell for a great deal more.

But that simply means that—at its price -you're getting a very big money's worth.__

All of which adds up to one conclusion: the smart thing to do is come in and give this neat and nimble new SPECIAL a thorough going-over.

Try out its power-the power of its highcompression, valve-inhead Fireball Engine.

Try out its ride and handling-and you'll discover it has the "big-car feel" that you'd expect from a Buick.

Try it out for size - for room - for comfort-for all the things that you've dreamed someday of having in a carand you'll thank your stars that you found out the facts of life in time.

Sen. Frank Andrews, Republican from Hillman, says its time the bingo question was straightened out. He plans to introduce a bill legalizing bingo and small-time raffles sponsored by lodges, veterans organizations, churches, chamber of commerces and etc. A "worthy cause" would be required.

Only 4.000 volunteers have signed up as aircraft spotters in the ground observer corps of the civil defense set-up. Some 15,000 are needed.

Year's toll in forest fires thus far is less than 4,000 acres burned over in Michigan from 628 fires— a small drop over last year. Wet [31] has held down late damage.

Last year: 275. Michigan > residents: died im fires: Some 46,000 flome fires caused estimated damage of \$9.000.000.

100 Foresters To Attend Annual Meet

Some of the first commercial plantation cuttings of pulpwood ever made in the Higgins Lake state forest will be witnessed by over 100 foresters from Illinois, Indiana, Ohio and Lower Michigan convening here October 18

Occasion for which the conservation department will be host to federal, state, college and private foresters at the Higgins Lake training school is the annual meeting of the Society of American Foresters, Central States Section.

Cutting practices for various types of timber is one of the important problems to be discussed,
